Authorization for this examiner's amendment was given in a telephone interview with Mr. Bruce Troxell on Friday, September 2, 2005.

In the Amendment dated 8/3/2005:

Claim 12, line 3, replace "the", fourth occurrence, by --to--.

Allowable Subject Matter

2. Claims 11-16 are allowed. Claims 11-16 have been renumbered 1-6, respectively.

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest, in combination with all the elements recited in the independent claim 11, a lock device having a shift body pivotally connected to the drawer front board at a middle portion thereof; the shift body having a driving section located on an interior of the upper opening and a force application section located on an exterior of the drawer and protruding outwardly from the drawer front board; the resilient body having a U-shaped cross-section, with a first connecting section connected to a first of the two cabinet side boards and an engaging section selectively engaging the stopper body, when the lock device is in the locked position, the force application

section is pivoted downwardly pivoting the driving section upwardly and releasing the engaging section to resiliently move upwardly, the engaging section engaging the stopper body and locking the drawer in the first position; and, when the lock device is in the unlocked position, the force application section is pivoted upwardly pivoting the driving section downwardly and pressing the engaging section downwardly, the engaging section is separated from the stopper body and the drawer is slidable between the first and the second positions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
